

# The innovative scratch resistant XD surface<sup>®</sup> – exclusively by Topalit

The XD surface on Topalit tabletops is a strong product advantage.

The innovative surface provides even better scratch resistance and more durability to the surfaces of Topalit tabletops. The increased wear resistance was tested and confirmed by the independent *Austrian Wood Research institute*.

XD surface

conventional surface

The standardized Taber Abraser test shows a clear result. The abrasion resistance of the Topalit tabletops with XD surface is much higher than the resistance of tabletops with conventional surface.

## Proven by the Austrian Wood Research Institute:

without XD-surface	25 turns	70 turns	50 turns
with the innovative XD-surface	25 turns	1.050 turns	550 turns

## FACTSHEETS

innovation meets tradition
