

# The innovative, SCRATCH-RESISTANT

# XD SURFACE® – exclusively by Topalit®

The XD Surface® by Topalit® is a unique product advantage.

Thanks to the innovative surface, Topalit® tabletops achieved best results in abrasion tests in the areas of scratch resistance and durability. The improved properties were tested and confirmed by the independent *Austrian Wood Research Institute*.

The standardised taber abrasion test shows clear results: The resistance to abrasion of a Topalit® tabletop with XD Surface® is by far higher compared to a conventional tabletop.

XD Surface®

Conventional surface

## Test results

Tabletop sample	IP (starting value)	FP (end value)	WR (wear limit)
Conventional surface	25 rotations	70 rotations	50 rotations
Innovative XD Surface®	25 rotations	1,050 rotations	550 rotations
